

COMMUNITY ENERGY PAID INTERNSHIP PROGRAMME

This unique free 50-hour community energy training scheme is part of the Energy Garden programme, delivered by Repowering London, Groundwork and Transport for London and funded by Players of the People's postcode Lottery. Energy Garden is creating community-led gardens on London Overground stations supported through a solar electricity generating scheme.

»»»» INTERNS WILL GAIN NEW SKILLS:

- Renewable energy technologies
- Energy efficiency
- Green gardening
- Community development

- This paid internship training scheme is open to 16-24 year old residents of London.
- The training will include classroom-based learning, site visits events and practical lessons to help you get started in green technologies, gardening and community-based work.
- Relevant paid work opportunities may also be available.
- Taster sessions start in Spring – full 50-hour programme in July 2016 - please apply now to ensure a place!
